

## **Brockton Makerspace Website Release Form**

This form is an official notifying all members of Brockton Makerspace that a website and social media presence was created for the program. Based on our research, we believe a website will benefit Makerspace and invite more students to join the program. Since there are other programs and events targeted to students, we believe a website and social media presence will help Makerspace stand out from the rest.

The website and social media presence will be run by the volunteers of Makerspace. Each person will have their own username and password to access the site. Some volunteers will be in charge of social media accounts and make sure they are up to date. High school students will also have access to the site and are able to post their projects on the site. However, a student can only post and are not allowed to change the site in any way.

If you have questions or comments, please feel free to contact Pat Monteith or myself.

Thank you,

A handwritten signature in black ink that reads "Sarah Bucklin". The script is cursive and fluid, with the first name "Sarah" and last name "Bucklin" clearly legible.

Sarah Bucklin
